

MAC

# MAC - RECIPROCATING FEEDER

These feeders are suitable to feed the primary machines and they are too appropriate to treat alluvial materials also of large size. They are essentially composed of: steel box with reinforced base covered by anti-wear bolted

and replaceable metal sheets; sliding wheels for box; box movement by means of a piston rod mounted on the bearings and transmission made of electrical motor and reducer.

Model	Truck width (mm)	Truck length (mm)	Capacity (t/h)	Max feeding size (mm)	Power (kW)	Weight (kg)
MAC-070	700	3000	115	500	4	3500
MAC-080	800	3500	130	600	5.5	4500
MAC-090	900	4000	150	700	11	7000
MAC-100	1000	4000	180	800	15	8500
MAC-120	1200	4000	200	850	15	9000
MAC-130	1300	5000	320	900	22	12000
MAC-145/5	1450	5000	600	1000	45	14000
MAC-145/6	1450	6000	600	1000	55	18000

## APPLICATIONS

Aggregates

Recycling

Industrial sands
